

Research Data Management Training Workshop
JISC Managing Research Data Programme 2011-13, DCC and DaMSSI-ABC Project
10.30 - 16.00 Friday 26 October

ETC Venues Paddington: <http://www.etcvenues.co.uk/venues/paddington>

Objectives: the workshop will provide an opportunity for new projects to introduce themselves and their objectives and to consider progress in the area of developing training materials for research data management. The workshop will consider what has been done so far in this area, what work is currently underway, and what the new projects and other initiatives are going to do. We will hear about the work of a set of digital preservation project that developed training materials for research data management as well as from other work in the MRD programme. The DaMSSI-ABC project will describe its objectives and run workshop exercises covering areas of good practice in curriculum design and description.

Programme:

10.00 - 10.30	Registration, Tea & Coffee
10.30 - 10.50	Introduction and welcome (Simon Hodson); DaMSSI-ABC project overview, objectives, activities
